#### 4.0 First Aid Measures

**4.1 Inhalation** Bring patient to fresh open air away from contaminated area.

If not breathing or breathing difficult give oxygen. Apply CPR in cases of respiratory failure and seek medical assistance .

**4.2 Skin Contact** Flush skin and hair with running water and soap if available .

Remove contaminated clothing including footwear . Before

reuse launder or replace.

**4.3 Eye Contact** Flush with water lifting lids occasionally. Check for and

remove any contact lenses . Seek medical attention .

Do not induce vomiting. Keep patient warm and quiet. Seek

medical attention immediately .

**4.5** First Aid Facilities Eyewash and normal washroom facilities and consumerables .

**4.6 Notes to Doctor** Treat symptomatically . Aspiration is the main danger .

Enforce bed rest and observe carefully . Prophylactic antibiotics useful . Observe for chemical pneumonitis . Gasto-intestinal absorption is significant with hydrocarbon solvents .For large ingestions cuffed endotracheal tube is

recommended.

## 5.0 Fire Fighting Measures

**5.1** Flashpoint 27°C

**5.2 Flammability Limit** 1.0 (Lower)

5.3 Extinguishing Media

Foam , carbon dioxide , dry chemical . DO NOT USE WATER JET

5.4 Hazardous Composition Products

May form toxic materials such as Carbon Monoxide and Carbon Dioxide.

#### 5.5 Special Firefighting Procedures

Call Fire Service and tell them of location and nature of hazard .

Water or Foam may cause frothing that can be violent, especially if sprayed into containers of hot burning liquid. Self contained breathing apparatus with full face piece should be used.

Closed containers can be kept cool by water spray .

Make sure of adequate supplies of extinguishing material available.

### 5.6 Unusual fire and Explosion Hazards

Vapours are heavier than air and may travel along ground and move by ventilation and ignite at a point far from the source. Sumps and drains should be checked for signs of accumulation .

## 5.7 Firefighting Personal Protective Equipment

Full protective clothing and self contained breathing apparatus . Water rinse shower available .

	6.0 Accidental	Release Measures		
6.1	Minor Spills	Eliminate all sources of Ignition. Stop leak at source. Dyke area of spillage. Absorb with sand or other absorbent inert material.		
6.2	Major Spills	Clear are from all public and personnel . Call fire service and advise on the nature of hazard . Ensure spill is contained however if spill enters waterways directly or through drains advise local environment protection authority .		
6.2	Disposal	Destroy by controlled incineration by approved waste disposal group or use an authorised disposal area.		
7.0 Handling and Storage				
7.1	Handling	Use in well ventilated area away from any source of ignition . Wear safety glasses , nitrile gloves , overalls , and approved cartridge respirator when spraying .		
7.2	Storage	Store in a cool , authorised room away from any source of accidental ignition , or any oxidising agents . Do not store in any secondary packaging .
